

*Greetings from the De-ESCALaTE HPV study!*

Please read below for some updates...

**174 patients** have now been randomised into the De-ESCALaTE trial!

**THANK YOU** to all our participating sites for your dedication and continued efforts to recruit patients!

**THANK YOU** to our sites in set-up for your hard work!

- As many of you are aware, the Trial Office has implemented new versions of the Protocol (V4.1, dated 05 May 2015), Patient Information Sheet (V5.0, dated 13 Mar 2015), and GP Letter (V3.0, dated 13 Mar 2015). All Principal Investigators and Main Contact at open sites should have received an email from Tessa on the 21<sup>st</sup> of May and the 30<sup>th</sup> of June relating to these amendments. If you have any questions about these documents, please contact the Trial Office.
- NEW CRFs—some of the CRFs have recently been revised and new versions will be distributed to sites imminently.
- For all sites currently open to recruitment — Please submit your Version Control Checklists (shortened version) if you have not already done so. If your Site Delegation Log has been updated, please remember to send these to Matthew.
- For local Principal Investigators and Co-Investigators only — A friendly reminder that the Extended TMG is scheduled for Thursday, 23<sup>rd</sup> of July, at 14:00 via teleconference. Please contact Tessa if you would like to participate.

Kind regards,  
The De-ESCALaTE Team

\*If you would like to be removed from future email updates, please let me know.
